The Tameside Sustainable Community Strategy

“Tameside is a great place to live. We will make it even better. It will continue to be a borough where the people who live here feel at home, are able to get involved in the life of the community, where they can contribute to a prosperous local economy, feel safe and healthy, and take active responsibility in their environment.” (Tameside Community Strategy 2009-19)

The Sustainable Community Strategy sets out 6 aims for the Borough which were identified following extensive consultation with local people:

- Supportive Tameside
- Safe Tameside
- Prosperous Tameside
- Learning Tameside
- Healthy Tameside
- Attractive Tameside

Each priority has a vision for the Borough, they are:

Supportive Tameside

We want Tameside to be a place where people get on and look out for each other, and everyone shares in the growing prosperity, so that Tameside is an even better place to live now and in the future.

Safe Tameside

We want Tameside to be a place where everyone feels safe and secure, where crime and antisocial behaviour rates are low and continue to fall, and where people have respect for each other now and in the future.

Prosperous Tameside

We want Tameside to be a place where more and better jobs are available for everyone, local people are able to access these jobs and where new and established businesses can flourish.

Learning Tameside

We want Tameside to be a place where expectations and achievements are raised in schools, through exams and in other ways, so that young people have the best possible start in life and also that people in Tameside continue to improve their skills as adults.

Healthy Tameside

We want Tameside to be a place where everyone is healthy – both physically and mentally – and feels positive about the future.

Attractive Tameside

We want Tameside to be a place that is clean, green and an attractive place to be for everyone. We are determined to pass onto future generations a better quality of environment than we inherited.
